WHY EGYPT

Egypt is where three continents meet

A market of over 100 million people, a strategic position between Africa, Asia and Europe, and a government actively opening its doors to foreign capital.

01 A crossroads location

Direct access to African, Middle Eastern and European markets from a single base.

02 The Suez Canal

One of the world's most important trade arteries runs through Egyptian territory.

03 A large domestic market

Over 100 million consumers, plus preferential access to regional trade blocs.

04 Open to investors

Dedicated investment systems and free zones designed to welcome foreign capital.

The opportunity is real. What decides the outcome is how you enter — and who is standing beside you when you do.

WHO WE ARE

STELLAR is your partner on the ground

Entering a new country is where most investors lose time and money — unfamiliar procedures, the wrong advisors, and no one who knows the terrain.

Eng. Ayman Saleh

Former Head of the Free Zone — Port Said, then Ismailia
Former First Undersecretary of Ministry

GET IN TOUCH

We connect serious investors with real opportunity in Egypt — clearly, professionally, and without the guesswork.

WHY STELLAR

Why investors choose us

STELLAR stands on the ground in Egypt. We guide foreign investors from the first consultation through to a running operation, and we stay beside them afterwards.

- › A real presence on the ground in Egypt — not a mailbox.
- › One partner across advisory, engineering, logistics and trade.
- › An active Egypt–China network, proven by projects already moving.
- › We work in Arabic, English, Russian and Chinese.

Partner factory, production floor — China

WHAT WE DO

Everything you need, under one name

**Investment advisory**

Reading the market, sizing the opportunity, and planning your entry.

**Engineering consultancy**

Technical studies and engineering support for your project on the ground.

**Logistics advisory**

Moving goods, materials and equipment in and out of Egypt.

**Company formation**

Establishing your legal entity in Egypt through the proper channels.

**Import & export**

Sourcing, trading and cross-border movement of goods.

**Customs clearance**

Clearing shipments and handling the paperwork end to end.

THE INVESTMENT LANDSCAPE

Talk to us to find the route that fits your project.

THE INVESTMENT LANDSCAPE

Investment systems & free zones

Egypt offers several routes for foreign investment — including free-zone arrangements designed for export-oriented businesses and dedicated frameworks that give foreign investors a clear legal footing.

Each route carries its own advantages, and the right one depends on your activity, your market and your goals. Rather than list rules that change, we assess your specific case and guide you to the framework that fits — then we handle the steps to get you there.

Talk to us to find the route that fits your project.

Partner meeting — Egypt

HOW WE WORK

From enquiry to operation

1

Consultation

We understand your goal, your sector and your constraints.

2

Feasibility

We study the market, the location and the numbers.

3

Formation

We establish your entity through the proper channels.

4

Licensing

We guide the permits and approvals your activity needs.

5

Operation

We help you set up, source, ship and clear.

6

Follow-through

We stay beside you as the operation runs and grows.

GET IN TOUCH

Tell us what you want to build in Egypt. We'll tell you how to get there.

ON THE GROUND

We are already building in Egypt and China

Factory visits, project groundbreakings, certifications and international forums — a working presence across both markets.

NEXT STEP

What to send us

The more we know at the start, the faster we can tell you what is realistic.

- 1 Your sector and the activity you plan to run**
- 2 Whether you are looking at a free zone or the domestic market**
- 3 Approximate investment size and your target timeline**
- 4 What you need on the ground — land, factory, warehouse or office**
- 5 Your preferred language for correspondence**

GET IN TOUCH

Send us these five lines and we will come back with a clear route.
