

COMPANY PROFILE · 2026

One company between your order and **its arrival**

Import, export, general trading, sourcing, logistics, customs clearance and general contracting — with produce, plants, brass fittings and landscape delivered under one name.

We grow it, we manufacture it, we supply it — from Egypt and China.

CE · ISO 9001

PHYTOSANITARY CERTIFIED

EXPORT PACKING

EGYPT & CHINA

WORLDWIDE SHIPPING

WHO WE ARE

Most trade companies are a phone number between two other companies.

STELLAR TRADE is not that. We grow plant material in our own production, we supply brass valves and fittings through a certified partner manufacturer producing in two countries, and we move, clear and install the result ourselves.

Founded and headquartered in New Cairo, Egypt, we operate across twelve business lines organised into five divisions.

The structure is deliberate. Import and export, freight, customs clearance, sourcing, production and contracting sit inside one company, so a client deals with one counterparty who cannot pass the problem sideways: fewer hands on the shipment, fewer places for it to fail.

WHAT THAT MEANS IN PRACTICE

- › A landed position, not a factory price with surprises after it
- › One point of contact from purchase order to arrival
- › Product origin we can actually answer for
- › Documentation prepared by the people who packed the cargo

COMPANY AT A GLANCE

Legal name	STELLAR TRADE for Import, Export & General Contracting — LLC
Headquarters	New Cairo, Egypt
Structure	Five divisions · twelve business lines
Production origins	Egypt & China
Working languages	Arabic · English · Russian
Web	stellartrade.net

OUR VISION

Where we are going

«To deliver the best service — at a quality and speed that make us one of the largest companies and the most trusted partner in the world.»

THE STELLAR TRADE VISION

Our vision is to grow into a global company with a presence across the markets we serve, working in different fields — from fresh produce and agriculture to brass fittings, trading, logistics and contracting.

We are building it through structure rather than announcement: our own production in Egypt, a second manufacturing origin in China, and freight and customs inside the company. Each new market is added when we can answer for the result there the way we answer for it at home.

MARKETS WE SERVE AND SHIP TO

Egypt	Home market: production, contracting, domestic supply, and the customs and freight base
Russia & the CIS	Strategic axis: fresh and frozen produce, plants, agricultural supply, general trading
China	Second production origin: brass valves and fittings, industrial sourcing
The Gulf	Plants, landscape material and project supply
Europe	Produce, plants, brass valves and fittings
The Americas	Export supply on request

WHAT WE DO

Twelve business lines. Five divisions. One counterparty.

Each division stands on its own commercially — and every one of them runs on the same trading, freight and clearance spine. That is why produce, valves, plants and project cargo can travel on a single conversation.

01

Trade, Logistics & Customs

Import & Export · General Trading · General Supplies · Sourcing

02

Fresh Fruits & Vegetables

Food Commodities · Fresh Fruit · Fresh Vegetables · Frozen Produce

03

WHAT WE DO

01 Trade, Logistics & Customs

Import, export, general trading, general supplies, sourcing, logistics and customs clearance — the spine the rest of the business runs on.

We move goods between Egypt, China and the world, and we clear them. Because freight forwarding and customs clearance sit in-house alongside the trading desk, a shipment does not change hands between three companies that each blame the other while the container sits at the port.

That is what lets us quote a landed position rather than a factory price, and keep one accountable name from purchase order to arrival.

Import & Export

General Trading

General Supplies

Sourcing

Logistics Services

Customs Clearance

Raw Materials

What we handle

Full container and part loads, project cargo, consolidated and mixed consignments across our own product lines.

Documentation

Commercial invoice, packing list, certificate of origin, phytosanitary certificates where the cargo needs them, and the customs file.

Sourcing

Finding the supplier and the product against your specification — in Egypt, in China, and from our own production.

WHAT WE DO

02 Fresh Fruits & Vegetables

Egyptian produce — fresh and frozen — graded, packed and shipped strictly to the buyer's specification.

Egypt grows well and it grows early. We source against your specification — variety, calibre, grade, packaging and arrival window — and take it through packing, documentation and cold-chain dispatch.

Produce travels on the same logistics and clearance spine as the rest of our cargo, which is what keeps the chain short and the accountability in one place.

THE PRODUCE RANGE

Grapes

Pomegranates

Oranges

Mangoes

Strawberries

Dates

Guava

Potatoes

Onions

Garlic

Carrots

Green Beans

Sweet Peppers

Cucumbers

Food Commodities

Fresh Fruit

Fresh Vegetables

Frozen Produce

How we work

Against your specification, not a fixed list: variety, calibre, grade, pack format, arrival window.

Packing

Export cartons, crates and pallet configurations to the receiving market's norms.

Seasonality

Availability follows the Egyptian season. We confirm live availability at the point of enquiry rather than publish a static calendar.

WHAT WE DO

03 **Plants, Nurseries & Agriculture**

Ornamental plants and landscape trees grown under our own supervision, plus the nursery inputs that keep them alive to the destination.

This is the division where "we grow it" is literal. Shade and outdoor ornamentals, specimen palms, flowering shrubs and landscape trees are produced and grown out under our own supervision, then hardened, graded and packed to export standard.

Because we control production we can commit to grades and calibres before the season, and a buyer is not exposed to whatever an anonymous nursery decides to load that week.

Ornamental Flowers & Trees

Landscape Trees

Nursery Supplies

Growing Media & Substrates

Irrigation & Fertiliser Supplies

Range

Indoor and shade foliage, outdoor and avenue trees, flowering collections, palms and cycads — detailed in our Ornamental Plants Export Catalogue.

Condition

Loose, potted or fully export-packed. Plants hardened and acclimatised before dispatch.

Documentation

Phytosanitary certificate issued on request.

WHAT WE DO

04 Brass Valves & Plumbing

Brass valves and fittings supplied through our partner manufacturer — CE marked and ISO 9001 certified, producing in both China and Egypt.

STELLAR TRADE is the sourcing and distribution partner for an independent brass valve and fittings manufacturer whose production runs in both China and Egypt and whose products carry CE marking and ISO 9001 certification.

Two production origins is not a detail — it is the hedge. When a lane tightens, a lead time slips or a duty changes, the same specification can be sourced from the other origin without re-qualifying the product.

[Brass Valves & Fittings](#)[Plumbing Tools](#)[Plumbing Supplies](#)**Certification**

The manufacturer holds CE marking and ISO 9001 certification.

Dual origin

Production in China and in Egypt against the same specification.

Supply

Distributor and project quantities; private-label and OEM on request.

WHAT WE DO

05 Contracting & Landscape

General contracting, landscaping and garden design — delivered, not just supplied.

We design and build landscape, and we contract. Most suppliers stop at the gate; we plant what we grow, install what we supply and stand behind the result.

For a developer, resort or villa owner that collapses a familiar problem: the nursery, the importer, the freight agent and the contractor are usually four arguments waiting to happen. Here they are one signature.

General Contracting

Landscaping & Garden Design

Hardscape & Softscape Works

Irrigation Systems

Maintenance

Scope

Garden design, softscape and hardscape installation, irrigation and planting works.

Advantage

Plant material comes from our own production — specified, grown and installed by the same company.

Reference work

Delivered landscape projects are documented in our project portfolio.

WHAT WE SUPPLY

The range, in short

Full specifications, grades and volumes are confirmed against live availability for each enquiry.

Fruits & Vegetables

Fresh and frozen · to buyer specification · export packing

Brass Valves & Fittings

CE · ISO 9001 · produced in China and Egypt

Indoor & Shade Plants

Croton · Spathiphyllum · Monstera · Dracaena · Pothos · ferns

Outdoor & Landscape Trees

Delonix · Khaya · Bombax · Albizia · Cypress · Thuja

Flowering Plants

Bougainvillea in every colour · Euphorbia milii

Palms & Cycads

Royal Palm · Foxtail Palm · Sago Palm

Nursery Supplies

Pots · planters · saucers · hanging containers

Growing Media

Organic compost · professional peat substrate

HOW TO ORDER

From enquiry to arrival

- › **1 · Enquiry** — Specification, quantity, destination, target arrival window
- › **2 · Offer** — Quotation with the Incoterm, lead time and validity stated
- › **3 · Confirmation** — Proforma invoice, terms agreed, slot booked
- › **4 · Preparation** — Production, grading, export packing
- › **5 · Documentation** — Invoice, packing list, origin, phytosanitary
- › **6 · Dispatch** — Booking, loading, clearance and arrival support

WHAT TO INCLUDE IN YOUR ENQUIRY

- › Product and specification (variety, grade, size, model)
- › Quantity per line
- › Destination port or city
- › Preferred Incoterm
- › Target arrival window

WHY STELLAR

- › Short chain: production, freight and clearance in one company
- › Two production origins — Egypt and China
- › Certified where it counts: CE, ISO 9001, phytosanitary
- › One counterparty for produce, valves, plants and project cargo
- › We work in Arabic, English and Russian

Lead times are tailored to the request and confirmed on the quotation — we do not promise them in a brochure. We do not claim to be cheaper than the market: we are direct from production with no middlemen in the chain, and that is a different argument.

Start a conversation

Send the specification, quantity, destination and target arrival window. You will get a quotation with the Incoterm, lead time and validity stated.
