ABOUT STELLAR TRADE

A grower and exporter — not a broker.

STELLAR Trade is an Egyptian export house supplying ornamental plants and landscape trees to nurseries, landscape contractors, resorts, hotels and urban developers worldwide.

Our plants are produced and grown out under our own supervision, then selected, hardened, prepared and packed to international export standards to ensure safe arrival and high survival rates. Because production, preparation and export documentation sit under one roof, we control quality and cost at every step — and our clients deal with one accountable counterparty from order to arrival.

Beyond plants, STELLAR Trade operates across import and export, general trading, logistics, customs clearance and general contracting — so a plant order can travel with the rest of your project cargo under a single point of contact.

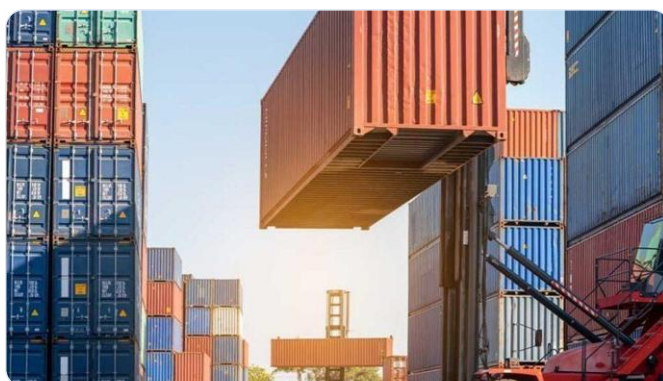

What sets the supply apart

- › Own nursery production — no anonymous middlemen in the chain
- › Plants hardened and acclimatised before dispatch
- › Phytosanitary certificate issued on request
- › Loose, potted or fully export-packed
- › Custom orders and bulk quantities
- › One counterparty for plants, freight and clearance

How an order runs

- › **1 • Enquiry** — send species, sizes and quantities
- › **2 • Offer** — quotation with Incoterm, lead time and validity
- › **3 • Confirmation** — proforma invoice and production slot
- › **4 • Preparation** — hardening, grading and export packing
- › **5 • Documentation** — phytosanitary, origin, packing list
- › **6 • Dispatch** — loading, shipping and arrival support

Reading the product pages

Every entry lists the botanical name, growing type and light requirement, followed by the specifications that matter when you plan a shipment — pot size, plant height, foliage and flower colour, growth rate, watering and climate tolerance — and the applications the variety is typically specified for.

Sizes shown are indicative production ranges. Exact grades, calipers and heights are confirmed per order against live nursery stock at the time of enquiry.

Plant height: 60–100 cm

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Shaded gardens and patios

Landscape projects

Commercial and hospitality spaces

Calathea rufibarba (Velvet Calathea)

Foliage Plant – Shade / Semi-Shade

A unique tropical foliage plant known for its long, wavy green leaves with a soft velvety texture and reddish-brown undersides. Highly decorative and ideal for adding an elegant natural touch to indoor and shaded spaces.

SPECIFICATIONS

Pot size: 20–25 cm

Foliage color: Green (upper side), burgundy-brown (underside)

Watering: Moderate to regular

Plant height: 40–70 cm

Light requirement: Bright indirect light / shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Shaded gardens and patios

Hotel lobbies and offices

Landscape projects

Commercial and residential spaces

Dieffenbachia (Dumb Cane)

Foliage Plant – Shade / Semi-Shade

A popular indoor ornamental plant known for its large, lush green leaves with attractive light-green and creamy variegation. Adds a fresh tropical look to interior spaces and shaded outdoor areas.

SPECIFICATIONS

Pot size: 25–30 cm

Foliage color: Light green with creamy variegation

Watering: Moderate

Plant height: 50–80 cm

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Offices and commercial spaces

Hotel lobbies and villas

Shaded gardens and patios

Monstera adansonii (Swiss Cheese Plant)

Foliage Plant – Shade / Semi-Shade

A popular tropical indoor plant, known for its unique perforated leaves and attractive climbing or bushy growth habit. Ideal for interior decoration, offices, hotels, and shaded landscape areas.

SPECIFICATIONS

Pot size: 20–25 cm

Foliage color: Bright green (perforated leaves)

Watering: Moderate

Plant height: 30–50 cm

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Shaded gardens and patios

Offices and commercial spaces

Landscape projects

SHADE / SEMI-SHADE

Areca Palm (*Dypsis lutescens*)

Palm – Indoor / Semi-Shade

An elegant ornamental palm with slender yellow-green stems and feathery arching fronds. Widely used for indoor decoration and shaded outdoor landscapes, adding a tropical and refreshing look to any space.

SPECIFICATIONS

Pot size: 25–35 cm

Foliage color: Light to dark green

Watering: Moderate, regular

Plant height: 120–180 cm

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Hotel lobbies and offices

Shaded gardens and patios

Villas and commercial projects

SHADE / SEMI-SHADE

Philodendron (Climbing Variety)

Foliage Plant – Shade / Semi-Shade

A tropical climbing philodendron with elegant, deeply lobed green leaves, trained on a natural support pole. Adds a lush, exotic look to interior and exterior spaces and is highly valued for vertical landscaping and decorative corners.

SPECIFICATIONS

Pot size: 25–35 cm

Foliage color: Deep green

Watering: Moderate

Plant height: 80–120 cm (including support)

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Hotel lobbies and malls

Shaded gardens and patios

Vertical landscaping

Offices and commercial spaces

SHADE / SEMI-SHADE

Dracaena (*Dracaena marginata*)

Foliage Plant – Indoor / Semi-Shade

A popular decorative indoor plant with slender stems and long, narrow green leaves, adding a modern and elegant touch to any space. Highly suitable for offices, hotel lobbies, villas, malls, and interior landscaping projects.

SPECIFICATIONS

Pot size: 30–40 cm

Foliage color: Deep green

Watering: Moderate

Plant height: 140–180 cm

Light requirement: Bright indirect light / semi-shade

Climate tolerance: Tropical and subtropical

USAGE

Indoor decoration

Offices and commercial spaces

Hotel and mall landscaping

Villas and reception areas

Syngonium (Syngonium podophyllum)

Foliage Plant – Shade / Semi-Shade

A popular indoor ornamental plant with attractive arrow-shaped leaves and soft green variegation. Widely used for interior decoration, offices, hotels, and shaded landscape areas due to its elegant form and easy maintenance.

SPECIFICATIONS

Pot size: 20–25 cm

Nursery Supplies & Growing Media

Pots, planters, compost and professional substrates — the same production inputs we use, available for bulk local and export supply.

9 PRODUCT LINES

MODEL: HRZFG

Pot

FEATURES

- Strong and lightweight plastic material
- Wide rim for easy handling and stacking
- Tapered shape for efficient space utilization
- Suitable for nursery and greenhouse use

Ornamental plants

Shrubs and small trees

Export nursery stock

MODEL: HRZFG

Khorshed Decorative Plastic Pot

FEATURES

- Strong and lightweight plastic material
- Decorative ribbed body design
- Wide rim for easy handling
- Stable base for better support

Ornamental plants

Flowering plants

Indoor and outdoor gardening

MODEL: HRZ-RB

Khorshed Rectangular Plastic Planter

FEATURES

- Strong and lightweight plastic material
- Rectangular shape ideal for linear planting
- Decorative ribbed design
- Wide top rim for stability and easy handling

Flowers and seasonal plants

Herbs and small shrubs

Balcony and window decoration

MODEL: HRZ-RS

Khorshed Rectangular Plastic Planter with Saucer

FEATURES

- Made from strong, lightweight plastic
- Rectangular shape ideal for linear planting
- Decorative ribbed and scalloped design
- Supplied with matching drainage saucer

Flowers and ornamental plants

Herbs and small shrubs

Balcony and window decoration

MODEL: HRZ-RP

Khorshed Round Plastic Pot with Saucer

FEATURES

- Made from durable, lightweight plastic
- Classic round shape
- Decorative ribbed body
- Wide top rim for easy handling

Ornamental plants

Flowers and shrubs

Indoor and outdoor decoration

MODEL: HRZ-CRP

Khorshed Classic Round Plastic Pots – Set with Saucers

FEATURES

- Made from durable, lightweight plastic
- Decorative brick-pattern design
- Classic round shape with wide top rim
- Supplied with matching drainage saucers

MODEL: HRZ-HP

Khorshed Hanging Plastic Pot with Hook

FEATURES

- Made from durable, lightweight plastic
- Classic decorative vertical-rib design
- Supplied with strong hanging cords and hook
- Reinforced rim for extra strength

Hanging ornamental plants

Flowering plants

Indoor and outdoor decoration

Organic Compost

FEATURES

- Improves soil fertility and structure
- Enhances root development
- Increases water-holding capacity
- Promotes healthy plant growth

Soil conditioning

Potting mixes

Vegetable crops

Peat Moss – Hortimed Pro (400 L Bale)

SPECIFICATIONS

Product Type: Peat Moss Substrate

Grade: Professional

pH: Suitable for horticultural use

Texture: Fine to medium

Seed germination

Cuttings and propagation

Potting soil mixes
